Akademeia Summer School

Akademeia High School's summer school courses aim to do something different. Rooted in our school's principles, they take young people to places conventional education can leave untouched: helping them engage critically with subjects, see their relevance to the future, and inspiring them to seek more.

Our courses span the full range of disciplines across the school. Each programme is shaped by our teaching philosophy and mission to help every student reach their full potential and ignite a lasting passion for learning that endures well beyond the summer.

**7 Courses
11-17 years old
20 hours of tuition
