

## E-BOOK CREATION

### People and animals: a friendship that means a lot (PDS)

The Akademeia High School E-Book Creation Project Team is launching an e-book, a collection of short stories and illustrations, every single one written by a different team member about the unique relationship we, as humans can have with our beloved pets. They span a broad array of themes- from drama, psychology, mystery, to comedy. Each story is accompanied by a matching illustration created by us, students. The e-book creation process was divided into four main stages: brainstorming storyline ideas, writing and designing illustrations, putting them altogether, and publishing them.

*Julek:* „This project gave me an opportunity to express my creativity while helping animals in need - I loved it.”

*Bartek:* “It was an interesting opportunity to explore the process of e-book creation and it gave me a chance to help dogs and cats, so I truly enjoyed it.”

*Amelia:* “It was nice to be part of this project. I improve my writing skills and creativity, and at the same time helped out dogs and cats in need.”

*Olga:* “This project gave me the space to express my creativity and at the same time help animals.”

*Ignacy:* “This PDS project was my favorite so far, because we needed words and even more words until we didn’t.”

*Janek:* “It was a very interesting project. I am glad I got to help out dogs in need.”

*Kaja:* “What was amazing about this project was the opportunity to see how an e-book is made from scratch to completion. I believe it significantly enhanced my creativity and my writing skills. Creating a short story longer than 8 pages was undoubtedly new, but it was also a fantastic experience.”

*Ewa:* “I loved this year’s PDS project, as it helped me develop useful skills, such as making mats. This also helped me to improve my writing.”

*Zosia:* “I was fascinated by the whole publishing process, from writing our own stories to illustrating them and, finally, seeing the e-book completed. It was a very insightful experience and I loved collaborating with my peers to create something we are all proud of.”

**Our guide through the process of creating the e-book:** Ms. Natalia Kowalczyk

**Participating students:** Kaja Oszczęda, Olga Jackowiak, Bartosz Świdnicki, Ewa Wuczyńska, Ignacy Charaszkiwicz, Jan Kapliński, Julek Franco Janecki, Zofia Rzegocka, Amelia Frączkiewicz
